

# SCOPS

Social Care Online Policy System

## West Berkshire Council - Adult Social Care Online Policy System (SCOPS)

### What is it?

The Social Care Online Policy System (SCOPS) provides an Index of ALL West Berkshire Council adult social care services policies, procedures and information.

Policies and procedures provide a framework to inform action by Social Care staff, whether in relation to service users, personnel, health and safety etc. They should clarify the scope, purpose, and legal basis for any procedure and clarify management responsibilities and role of staff.

SCOPS ensures policies and procedures are available and accessible to all members of staff in an easily understood format.

### Development of Policies Procedures

All documents must be produced in line with WBC '[Corporate governance document standards](#)' which provides direction on the type, content and appearance of all documents and has been adopted for West Berkshire Council in order to ensure consistency in production and presentation of information.

These standards apply to all documentation generated and in use by West Berkshire Council staff to ensure that the authority operates as a viable and effective organisation.

Any work should pay attention to defining whether a document is a policy, procedure or guidance note. In particular note should be taken of approval routes.

Document types include:

- ✦ **Policy** (*what is to be done and why it is to be done*)
  - A statement of intent in respect of a particular responsibility
  - A Policy may require a number of standards and procedures to support it.
  - Any new or revised policy or strategy should undergo a basic Equality Impact Assessment to ensure equality issues have been considered and any likely negative impact has been addressed.
  - To be approved by Corporate Board, and if necessary Management Board
- ✦ **Standard** (*gives the required level of activity or quality*)
  - To be approved by Service Director
- ✦ **Procedure** (*defines how the activity or task is to be conducted*).
  - To be approved by Service Management (ASCM)
- ✦ **Guidance** (*explanation or assistance on delivery*)
  - To be approved by relevant Management teams / ASCM as appropriate

*For further guidance on these templates or drafting policies / procedures please contact us. It is essential that SCOPS is accurate and up to date and is a single point of reference for all Adult Social Care policies and procedures.*

### Management of Policies Procedures

The SCOPS Index is maintained by the Information Coordinator, Adult Social Care. All services areas are responsible for informing the Coordinator of changes to policies and procedures they work to.

### Functionality of SCOPS

As well as being a source for our policy / procedural framework; SCOPS is also a management tool and can filter documents according to service / document owner / date etc. Please contact *Barbara Billett* to access this functionality.

This document is designed to be read online and links to relevant policies and websites. It will be kept up to date and the latest version can be found at [www.westberks.gov.uk/scops](http://www.westberks.gov.uk/scops)
