The Reason For a Local Scheme

On 1 April 2013, the Government abolished the national Council Tax Benefit scheme which previously provided assistance towards Council Tax. In its place central Government asked councils across the country to develop their own schemes for Council Tax Reduction (CTR).

From April 2013 we have continued to use the same allowances and premiums for calculating Council Tax Reduction as the amounts which are supplied by Department for Work and Pensions for the purposes of assessing Housing Benefit. This means that CTR assessments are updated each financial year.

Due to changes in funding we needed to make some difficult decisions about who can continue to get financial support, and how much assistance can be provided in these already challenging times. The following features have been part of the CTR scheme for West Berkshire since 1 April 2017 and will continue into 2024/25.

Key Features of West Berkshire's CTR Scheme

The following numbered points do not apply if you are of pensionable age or fall within our vulnerable scheme, due to receiving a disability related benefit. Following consultation with customers, the Council introduced a number of changes to its CTR scheme which are designed to minimise cuts to other services and the need to use financial reserves. **Numbers 1 to 6 which follow, only apply to [working age](#) claimants who do not fall within the Council's [vulnerable](#) category**.**

1. The capital threshold for working age claims is reduced to £6,000

- Where the sum of capital held by claimant and/or their partner exceeds £6,000, either on 1 April 2024 or on the date of a new claim for CTR, there will be no entitlement to CTR for the entire remainder of the billing year.
- If capital has reduced from a sum in excess of £6,000 prior to 1 April 2024, or prior to making a new claim for CTR, you will be asked to provide evidence and information to establish that expenditure was necessary at the time it was incurred.

This revised capital threshold will not apply to a working age claim for any period where the claimant or partner are in receipt of Income based Job Seekers Allowance, Income Support, or Income Based Employment and Support Allowance

- This revised capital threshold will not apply to a working age claim for any period where the claimant or partner are in receipt of Income based Job Seekers Allowance, Income Support, or Income Based Employment and Support Allowance

- If you need to update us with the current amount of capital held by you and your partner (if applicable) please notify us in writing as soon as possible. Our address is at the top of this leaflet or alternatively you can email benefits@westberks.gov.uk. You will also be required to provide evidence.

- **Although we understand that capital balances can fluctuate, working age claimants need to report any significant changes in your capital balance, and particularly if your capital exceeds £6,000 at any stage. Promptly reporting changes to your capital, minimises the risk of large increases in Council Tax instalments later in the financial year.**

2. The amount of reduction is restricted to the amount for a Band C property

Claimants living in properties in Council Tax bands D to H will, if entitled, receive reduction, but this will be limited to the amount the household would have been awarded if living in a Council Tax band C property within the same parish.

3. A minimum contribution of 30% is payable by working age claimants

- The maximum Council Tax Reduction for which a working age claimant will qualify, will be 70% of their liability (after deductions have been taken for any other discounts or reductions).
- Council Tax Reduction will therefore only be deducted 70% of a working age customer's liability.

4. A taper of 30% is used in the means-test calculation.

- If a claimant and/or their partner is not receiving Income based Job Seekers Allowance, Income Support, or Income Based Employment and Support Allowance, the amount they are asked to contribute towards Council Tax is calculated by comparing their income with their applicable amount. An applicable amount is the minimum weekly income set by Central Government which a household sharing the same circumstances is considered to require to live on.
- A working age claimant will be required to contribute 30% of the difference between their applicable amount and their total income (which is not disregarded for benefit purposes) towards their Council Tax.

5. Reduction is only awarded where an entitlement of £10 per week or more is assessed.

If remaining weekly entitlement is assessed to be less than £10, no reduction will be granted.

6. Cease to allow Second Adult Rebate

- Second Adult Rebate is a reduction which could be awarded where a second adult, who is not a partner, lives within a household
- If you're entitled to second adult rebate, it means the amount of Council Tax you have to pay is reduced by a certain amount. The amount of the reduction will depend on the income of the adult living with you and will be between 7.5% and 25% of the Council Tax bill
- This type of Council Tax Reduction is no longer available to working age claimants. Council Tax Reduction for working age claimants is now only awarded according to the income, capital and household circumstances of the charge-payer and partner.

Protection from change:

Pension age* and vulnerable persons** will not be subject to the above provisions and will continue to have Council Tax Reduction deducted from their full liability for Council Tax.

Depending upon their income and circumstances, pension age and vulnerable customers will continue to be potentially entitled to full Council Tax Reduction, which may leave no Council Tax to pay in a number of instances.

* Pension age

[The government set the Scheme for pension-age applicants](#), who will not be directly affected by changes to the local scheme. For CTR, we treat you as being of pension age if you and/or your partner are old enough to receive Pension Credit and neither of you are in receipt of a working age benefit such as Universal Credit, Jobseekers Allowance or Employment and Support Allowance. You can check the date you reach pensionable age at: <https://www.gov.uk/state-pension-age>

** Vulnerable persons

A vulnerable person is defined within West Berkshire's CTR Scheme as a claimant, partner, child or young person receiving a disability related benefit or war pension. A list of the types of income which protect a claimant from the above numbered variations within the local scheme can be found at www.westberks.gov.uk/counciltaxreduction

In designing this scheme, the Council has recognised that vulnerable people are less able to contribute and has therefore provided protection to customers identified as suffering from a defined level of disability. Regrettably it is inevitable that any definition of disability will involve some customers, falling just outside the boundaries of the protection we are able to provide.

Exceptional Hardship Fund

This is a fund which the Council operates in order to alleviate instances of hardship. Exceptional hardship is a discretionary fund Funding is only available for short term awards where hardship arises as a direct consequence of the Council Tax Reduction Scheme.

If you believe that you are experiencing hardship, a form can be completed in order to apply for additional assistance in paying your Council Tax. Forms are available from the West Berkshire Benefits Section on 01635 519528 or online at <https://www.westberks.gov.uk/council-tax-reduction>

Other financial help with living costs available from this Council:

Household Support Fund:

Whilst the 2023/24 Household Support Fund closed to new applications on 18 March 2024, the scheme is being extended for six months from April 2024. Further information will be provided at <https://www.westberks.gov.uk/householdsupportfund>, as it becomes available from central government.

Housing Benefit:

Housing Benefit is a national welfare benefit paid by the council to help meet the cost of rent.

You will only be entitled to Housing Benefit if you (and your partner, if you have one):

- are of State Pension age
- are resident in specified accommodation
- are resident in temporary accommodation

Anyone whose circumstances do not fall within at least one of the above categories can only make a new claim for assistance with housing costs through the Universal Credit More information can be found at <https://www.westberks.gov.uk/housing-benefit-about> <https://www.westberks.gov.uk/universal-credit>

Discretionary Housing Payment

Anyone who is currently receiving Housing Benefit, or the housing element of Universal Credit, and needs further financial assistance with housing costs can make a claim for a DHP.

A Discretionary Housing Payment (DHP) provides further financial assistance relating to housing costs to households over a short-term period. These payments are made at the discretion of our housing service, where it is considered that an applicant is in need. More information can be found at: <https://www.westberks.gov.uk/dhp>
