

West Berkshire Local Plan Review 2022-2039
Schedule of Proposed Additional (minor) Modifications (AM)

This Schedule contains proposed Additional Modifications (AM) to the submitted [West Berkshire Local Plan Review 2022 – 2039 \(LPR\)](#). Additional modifications (sometimes also referred to as “minor modifications”) are changes which do not materially affect the policies in the Plan and therefore they do not fall within the scope of the Examination. This Schedule is published for information only.

They are expressed in the conventional form of ~~strike through~~ for deletions and underlining for additions of text.

Please note that the page numbers and paragraph numbering below refer to the [Proposed Submission LPR dated 20 January 2023](#), as submitted.

Chapter 1 Introduction & Background				
AM1.1	5	Paragraphs 1.2-1.2, 107-1.10	<i>Delete paragraphs under the headings ‘Setting the Scene’ and ‘Why are we Reviewing the Local Plan’</i>	Information no longer required
AM1.2	6	Neighbourhood Planning Paragraph 1.14	<p><i>Update paragraph 1.14 as follows:</i></p> <p>‘Parish and town councils within West Berkshire can produce neighbourhood plans (NDP) which, when adopted, also form part of the development plan, together with the LPR and the West Berkshire Minerals and Waste Local Plan. Neighbourhood plans must be in general conformity with, and reflect the strategic policies in, the LPR. Neighbourhood plans should not promote less development than set out in the LPR, but can promote more development. Appendix 6 sets out how the LPR policies will be applied in the neighbourhood planning context. In West Berkshire we have two <u>four</u> made neighbourhood plans – the Stratfield Mortimer Neighbourhood Development Plan (2017), and the Compton Neighbourhood Development Plan (2022), <u>the Hermitage Neighbourhood Plan (2024) and the Cold Ash Neighbourhood Plan (2024).</u>’</p>	<p>Factual update</p> <p>As a consequence of Proposed MM109</p>
AM1.3	6	What has happened so far? Paragraphs 1.16-1.21	<p><i>Amend title as follows:</i></p> <p>‘What has happened so far? Consultation’</p> <p><i>Update paragraphs 1.16-1.21 as necessary to reflect the progress of the LPR.</i></p>	Factual updates as appropriate to reflect the progress of the LPR

AM1.4	7	Duty to Cooperate Paragraph 1.22	<p><i>Update as follows:</i></p> <p>'1.22 Section 110 of the Localism Act places a legal duty on local planning authorities and other prescribed bodies to cooperate with each other when preparing development plan documents in order to address strategic planning issues relevant to their areas. The LPR is being <u>has been</u> produced through close partnership working with our neighbouring local authorities to ensure that cross-boundary planning issues are being <u>have been</u> taken into account. We have also co-operated with all authorities within a 60 minute "drive time" of Newbury with regards to employment issues. Key work on satisfying the duty takes place on an ongoing basis. A Duty to Cooperate Statement accompanies <u>accompanied</u> the <u>submitted Draft LPR and which</u> sets out in detail how the Council is co-operating <u>co-operated</u> on strategic cross-boundary issues in order to create and deliver a positively prepared plan.'</p>	Factual updates as appropriate to reflect the progress of the LPR
-------	---	----------------------------------	--	---

AM1.5	7	<p>What evidence supports the LPR? Paragraphs 1.23-1.25</p>	<p><i>Update as follows:</i></p> <p>‘1.23 One of the key features of the plan-led system is that development plans should be based on up-to-date evidence. The LPR is underpinned by a wide-ranging evidence base, which has been <u>was</u> prepared, reviewed and updated as necessary as part of the LPR preparation. The aim has been <u>was</u> to understand how West Berkshire functions as a place, what makes it unique, and what is <u>was</u> required to conserve and enhance that uniqueness.</p> <p>1.24 The evidence can be broken down into two parts:</p> <ul style="list-style-type: none"> • The views and experiences of our local communities and those with a stake in the future of the District; and • Technical research in the form of published studies <p>1.25 The LPR is supported by a vast amount of national and local information and numerous professional studies. These are referred to at various points in the LPR and are published on the Council’s website. This evidence base will be added to as the LPR progresses.’</p>	<p>Factual updates as appropriate to reflect the progress of the LPR</p>
AM1.6	8	<p>Testing the LPR - Paragraphs 1.27-1.28</p>	<p><i>Update as follows:</i></p> <p>‘1.27 All local plans must be accompanied by a sustainability appraisal (SA) of the plan. The SA offers a systematic and robust way for checking and improving on plans and their policies as they are being developed. It helps planning authorities to fulfil the objective of contributing to the achievement of sustainable development in preparing their plans, and thus contributes to sound plan making.</p> <p>1.28 The SA process is intended to be an integral part of preparing a local plan, rather than separate to it. The SA of the Draft-LPR has been fully integrated into the plan-making process, so that it has informed and influenced the LPR as it has evolved. The SA will continue to evolve as the LPR progresses.’</p>	<p>Factual updates as appropriate to reflect the progress of the LPR</p>

AM10.4	163	Paragraph 10.59 of the supporting text to policy DM6	<p><i>Amend as follows:</i></p> <p>‘Most foul water is removed from a development site by a mains sewer. However, where this is not the case, foul water is usually treated on site and then discharged either to ground to filter away from the site, or into a nearby watercourse. If the treated water <u>is discharged to ground</u>, it has the potential to impact on water quality sensitive features, <u>particularly by increasing the already high nitrate concentrations</u>. The Environment Agency’s publication ‘General binding rules: small sewage discharge to groundwater (2021) stipulates that the <u>general binding rules can only be met if the discharge is less than 2 cubic metres per day and via a shallow drainage field located, designed, and constructed in line with the recommendations in British Standard BS 6297:2007</u>. If it is identified that a planning application could affect groundwater, the potential impact on water quality will need to be investigated and include a mitigation strategy which demonstrates how the applicant will reduce the negative effects of their proposal and show how they will implement risk reduction measures.’</p>	For information. As agreed in the Statement of Common Ground with the Environment Agency.
AM10.5	167	Paragraph 10.71 of the supporting text to policy DM7	<p><i>Amend as follows:</i></p> <p>‘In order to allow for water and wastewater infrastructure delivery national planning guidance stipulates that phasing new development should be considered to ensure that the ‘infrastructure will be in place when and where needed <u>and provided through the timely provision of new, or the enhancement of existing necessary strategic and local infrastructure to ensure that infrastructure is in place and available prior to the occupation of all developments</u>.’ As the Water Cycle Study (Phase 2) (2021) is showing the need for upgrades it may be necessary for development to be phased in</p>	For information. AM10.6	168	Paragraphs 10.74 – 10.76 of the supporting text to policy DM8	<p><i>Amend the supporting text to policy DM8 as follows:</i></p> <p>'10.74 The air quality in West Berkshire is predominantly good although the major source of air quality pollutants in the area is from road transport and there are specific areas where air pollution exceeds the levels set by European and UK regulations. For this reason, the Council has declared two Air Quality Management Areas (AQMAs), which relate to elevated levels of nitrogen dioxide (NO2). These are located at Newbury and Thatcham. The adjoining urban areas of Reading town centre is also designated an AQMA. Development proposals located within these areas will need to demonstrate how they take into account the Council's Air Quality Action Plan and so early engagement with the Council's Air Quality Officer is encouraged to help ensure the approach taken is acceptable. The developer will also have to prove to the Council that the proposals will not create an AQMA or be detrimental to the current AQMAs.</p> <p>10.75 West Berkshire Council is a member of the Public Protection Partnership with Bracknell Forest and Wokingham where data and information about air quality in these parts of Berkshire is pooled and shared. The emerging Policy Guidance: Planning for Air Quality (including Good Design, Emissions Mitigation Assessments and Air Quality Assessments) being prepared by the Partnership will set the requirements for the consideration of air quality in proposals for new development. AMA9.1	271	Appendix 9	<p><i>Amend definitions within the Glossary as follows:</i></p> <p>Development Plan - Is defined in section 38 of the Planning and Compulsory Purchase Act 2004, and includes adopted local plans, neighbourhood plans that have been made together with any regional strategy policies that remain in force. <u>Neighbourhood plans that have been approved at referendum are also part of the development plan, unless the local planning authority decides that the neighbourhood plan should not be made.</u></p> <p>Local Housing Need – An unconstrained assessment of the number of homes needed in an area, and the first step in the process of deciding how many homes should be planned for. The standard method of assessing LHN is set out in the Planning Practice Guidance in a formula which takes account of household growth projections and affordability in the local area. The number of homes identified as being needed through the application of the standard method set out in national planning guidance (or, in the context of preparing strategic policies only, this may be calculated using a justified alternative approach as provided for in paragraph 61 of this Framework).</p> <p>Planning Condition - A condition imposed on a grant of planning permission (in accordance with the Town and Country Planning Act 1990) (as amended). <u>or a condition included in a Local Development Order or Neighbourhood Development Order.</u></p> <p>Public Rights of Way - Public footpaths, and <u>bridleways and byways</u> as defined in the Countryside and Rights of Way Act 2000. The phrase ‘rights of way’ include the above and permissive routes where there is no legal right of way but access is permitted by the landowner.</p>	<p>To ensure consistency with national policy.
