(please tick/mark 'X' all that apply)

Positively Prepared: The LPR should be prepared based on a strategy which seeks to meet objectively assessed development and infrastructure requirements.	
Justified: the LPR should be the most appropriate strategy, when considered against the reasonable alternatives	
Effective: the LPR should be deliverable	
Consistent with national policy: the LPR should enable the delivery of sustainable development in accordance with the policies of the NPPF

MM3- Tilehurst – to reflect new site allocation at Pincents Lane and the inclusion of the Pincents Lane Retail Park. (as shown in the Schedule of Proposed Changes to the Policies Map (PMC5))

I am concerned about the limited nature of vehicular access to the proposed site at Pincents Lane. The site can only be accessed by the public from a narrow lane which leads down to the entrance of the Retail Park near to Junction 12 of the M4. This is already a busy stretch of road with many traffic hold ups, particularly at peak times and weekends. Currently, there are IKEA and Dunelm Mill which generate high volumes of traffic. Also feeding on to the A4 are the customers of Sainsburys, B & M, McDonalds and the other businesses in the Retail Park. There are also high volumes of traffic in and out of Reading along the A4 causing many hold ups and congestion.

I am also worried that inclusion of the Retail Park within the settlement boundary may have the eventual result of this area switching from commercial use to domestic building land at a future date. I think this would be detrimental to the area and result in a loss of shopping facilities and employment opportunities for local residents.

MM45- Insert new RSA policy and accompanying indicative site map into LPR before policy RSA6 as follows:

I am concerned about the limited nature of vehicular access to the proposed site at Pincents Lane. The site can only be accessed by the public from a narrow lane which leads down to the entrance of the Retail Park near to Junction 12 of the M4. This is already a busy stretch of road with many traffic hold ups, particularly at peak times and weekends. Currently, there are IKEA and Dunelm Mill which generate high volumes of traffic.
