Proposed Main Modifications and Proposed Changes to the Policies Map

1. Please indicate whether your representation relates to the Schedule of Proposed Main Modifications or the Schedule of Proposed Changes to the Policies Map and provide the modification/change number you are commenting on below:

Document name	Schedule of Proposed Main Modifications to the Local Plan Review
Modification/Change reference number (MM / PMC)	MM25

2. Do you consider the Proposed Main Modification or Proposed Policy Map Change to be:
(please tick/mark 'X' one answer for a and one for b)

- a) **Legally compliant** **No**
- b) **Sound** **No**

Please refer to the guidance notes for a full explanation of 'legally compliant' and 'soundness'

If you consider the Proposed Main Modification or Proposed Policy Map Change not to be sound, please identify which test of soundness your representation relates to:

(please tick/mark 'X' all that apply)

Positively Prepared: The LPR should be prepared based on a strategy which seeks to meet objectively assessed development and infrastructure requirements.	x
Justified: the LPR should be the most appropriate strategy, when considered against the reasonable alternatives	x
Effective: the LPR should be deliverable	x
Consistent with national policy: the LPR should enable the delivery of sustainable development in accordance with the policies of the NPPF	x

3. If you have answered 'No' to question 2a or 2b above, please provide details of why you consider the Proposed Main Modification or Proposed Policy Map Change is not legally

compliant or is unsound, including any changes you consider necessary to make the Plan legally compliant or sound.

You will need to say why this change will make the Local Plan Review legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

An increase in the number of dwellings from 1500 to 2500 will put a significant pressure on the amount and type of green infrastructure which will be able to be delivered on the site. This will need to be delivered in a way which protects the existing communities around the site and provides a sustainable form of development. A detailed plan will be required, including how it will be managed for perpetuity and through a legal agreement, taking into account the site's location within the setting of the North Wessex Downs National Landscape (AONB). A community park linking Thatcham to the AONB will increase the pressure on the AONB itself.

Close proximity of development site to North Wessex Downs National Landscape puts the sensitive AONB at risk and only a very much lower number of dwellings would ensure that the AONB is protected.

Sustainability Appraisal/Strategic Environmental Assessment (SA/SEA)

4. Do you have any comments on the updated Sustainability Appraisal/Strategic Environmental Assessment Report – Proposed Main Modifications (November 2024)?
(Please be as precise as possible)

Comments:	
The Council has maintained that there will be no change in the effects of an increase of 1000 dwellings (scores are identical for that scored on previous assessment for 1500 dwellings). This is clearly inaccurate.	

Habitats Regulations Assessment

5. Do you have any comments on the addendum to the Habitats Regulations Assessment of the Proposed Main Modifications (November 2024)?
